

Overview

The Singapore Science Centre is a non-formal educational institution for the promotion of science and technology to students and members of the public.

It has more than 1000 interactive exhibits in seven themed galleries that provide enthralling insights into the physical and life sciences.

Newangle were commissioned to create an animation telling the story of the discovery of the electron and its impact on modern life.

The animation displays how scientific discoveries are cumulative and collaboration is vital in modern day research.
